

## BONUS ADDITION

### SOUTH AFRICA SPARKLING WINE!

Out past Cape Town in the Breede River Valley is a terroir that has often been thought very similar to the structure of Champagne

#### GRAHAM BECK BRUT

Methode Cap Classique

*53% Chardonnay & 47% Pinot Noir*

Their great natural asset is its diurnal range, one of the widest in the Western Cape. Most afternoons a cooling breeze comes in to offset the morning heat. “I love talking about it, because we can have a 38-40 degree Celsius day but at night we may need to dress warmly”

Whole bunch pressing ensures fractional recovery. After settling of juice the two varietals are fermented separately. They are then cross blended along with reserve wine if necessary, bottled and left for 15 to 18 months yeast contact time before disgorgement
